Response to Amendment

The reply filed on September 1, 2009 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): MPEP 714.02 requires for a response to be responsive "the reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references" the response fails to discuss the specifics of why the new claims 21 and 22 read over the prior art of record, and it also is not clear whether these two claims are drawn to the elected species or not so if applicant can please identify whether these new claims are either generic or are directed to the elected species it would be appreciated so that the examiner treats them accordingly. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James F. Hook whose telephone number is (571) 272-4903. The examiner can normally be reached on Monday to Thursday.
